HAIX® High Durability Cap System

HAIX® Vario Wide Fit System

RFID Pocket

Boot jack

### Uppers

GORE TEX Extraguard, lightweight, multi-layer synthetic textile material with integrated waterproof and breathable membrane, low water absorption and fast re-drying, flame-retardant, durable and easy-care. The additionally welded Extraguard outer material, together with the Gore Crosstech membrane, offers additional protection against hazardous substances.

### Inner lining

CROSSTECH® Laminate Technology, waterproof and breathable. Abrasion-proof lining fabric for optimum climate comfort. Excellent penetration protection against blood and other bodily fluids (thus preventing ingress of viruses and bacteria).

### Inlay

Comfortable with cushioning and moisture-wicking effect. Separate heel cup ensures optimised cushioning and foot guidance. "AIRFLOW" channels. "Perfect Fit" marking for optimised boot size choice.

### HAIX® composite protective cap

Anatomically shaped, ultra-light protective cap made of fibre-reinforced plastic to meet the very highest safety requirements.

### Insole

Moisture-absorbent Straw insole made from non-woven fabric.

### HAIX® High Durability Cap System

Rubber cap with special profile to ensure longer service life.

### HAIX® protective sole

Flexible, lightweight metal sole insert to prevent punctures.

### Sole

Lightweight rubber/PU sole in a sports style with a sturdy road/rough terrain profile, and enhanced toe-to-heel support; wear-resistant with excellent anti-slip properties – even in cold weather. A lightweight PU shock absorption wedge provides outstanding walking comfort and excellent thermal insulation. The flame-resistant outer sole is non-marking according to EN 15090:2012 and offers excellent resistance against heat and fuels. Its bright yellow signal marks are visible even through thick smoke.

### HAIX® Arch Support System

Optimum ankle support and shock absorption in the arch area is provided by an anatomically formed last. Good foot guidance and a secure hold thanks to a narrow heel and ankle shaft combined with added comfort offered by a broad front foot area.

### HAIX® Identification System

Name field for boot labelling.

### HAIX® Vario Wide Fit System

Three different boot inserts enable you to adjust the boot to the width of your feet.

### HAIX® Climate System

Micro-dry lining around the upper end of the shaft uses the natural pumping motion generated as you walk along to transport moisture to ventilation slits at the shaft and tongue.

### HAIX® RAPIDFIT System

Two-zone lacing system for quick and optimum lacing adjustment and correct fit of the boot. An integrated protector offers additional safety.

### Further features

Ankle protector, extra-flexible shaft, pull tabs, boot jack, ESD, RFID pocket, reflective strips on the shoe and sole
